**References can be provided upon request to support further evaluation.**

## PROFILE

Motivated Web and App Developer with a solid foundation in frontend technologies and cross-platform mobile development. Recently completed training and eager to gain hands-on experience through an internship. Fast learner with a passion for clean, user-focused interfaces.

## PROJECT HIGHLIGHTS

GitHub: https://github.com/MuhammadAhsan123456

### 1. E-Commerce Website (ReactJS + Tailwind CSS)

Developed a responsive and modern e-commerce frontend using React and Tailwind CSS. Features include product listing, categories, search filter, and dynamic cart UI.

### 2. ToDo List App (MERN Stack)

Built a full-stack CRUD ToDo app using MongoDB, Express, React, and Node.js. Users can add, update, and delete tasks with real-time updates and toast notifications.

### 3. Weather App (JavaScript + OpenWeather API)

Created a live weather application using Vanilla JS and OpenWeatherMap API. Fetches real-time weather data based on city input with a clean UI and temperature visuals.

### 4. Portfolio Website url: ( https://ahsan639.vercel.app )

Developed a personal developer portfolio using React Js and tailwind css to showcase projects, skills, and contact information. Fully responsive across all devices.

### 5. Expense Tracker App (React Native)

Created a cross-platform mobile app with React Native for tracking daily expenses. Allows users to add, edit, and delete expenses with category filters and a clean mobile-friendly UI.
